# Welcome to Project Life®

(Becky's Team)

## What a Ride!

I've been reflecting back on what has transpired over the past 8 years. Care to stroll down Memory Lane with me?

Project Life® started as a simple idea. As a lifetime documenter and working professional in the scrapbooking industry since 1996, I was struggling several years ago with how much effort seemed to be required to put together a scrapbook page, let alone a whole album. I'm a creative person and enjoy the outlet as much as the next person, but my goodness – it was just all feeling like too much! I really started relating to those who felt like scrapbooking just wasn't for them.

I sought a solution... a way to keep memory keeping simple and focused on the photos and stories. What I needed simply didn't exist. So I created it. And in 2009, Project Life was born! The concept was simple: Standard-sized 4x6 photos and pre-designed journaling cards (in 4x6 and 3x4 sizes) slip into pockets. That's it! No cutting or gluing or embellishing required!

"But how is that scrapbooking?" some asked. Because scrapbooking = photos and stories. It doesn't matter how you approach it. And by golly, if I can help others feel like it IS do-able and you DON'T need a dedicated craft room to preserve your memories ... well, it became my message. And my passion.

### *Cultivate a good life and record it.*

That's my tagline. That's my mission. I believe that there is no right or wrong way to scrapbook. I believe that each person should connect with what works for them. Some need simple. Some prefer the creative approach. It's ALL good. I'm pleased that Project Life has become a system that countless people around the globe are connecting with, regardless of their approach. I'm humbled to know that this has been the gateway for many of our "used to be" scrapbookers to come BACK.

So here we are. Still at it. And thankfully I have an incredible team (pictured) to help keep this dream alive! Sooooo many product releases later – far more than I thought would ever be when my husband and I launched this company eight years ago – but the message is still the same. How grateful we are to have partnered with American Crafts to bring Project Life to the retail market. How grateful we are to have YOU, dear retailer, carry our products in your store. Thank you for trusting our brand. May Project Life continue to be the way that you can attract new customers on a regular basis, and may it continue to be a solution in our very special industry.

## What you need to complete a scrapbook

1. Project Life Album

2. Project Life Core Kit

3. Big Pack of photo pages

4. Your photos

5. Pen

## CORE EDITIONS

Our Core Kits are designed to provide enough cards to complete an entire 12x12 album! All of the designs coordinate perfectly to simplify the process and take the guesswork out of completing pages.
